

New Developments in Computational Fluid Dynamics [Proceedings of the Sixth International Nobeyama Workshop on the New Century of Computational Fluid Dynamics, Nobeyama, Japan, April 21 to 24, 2003 /

Fujii, Kozo

Springer Berlin Heidelberg,
2005

Monografía

This volume contains 20 papers presented at the Sixth International Nobeyama Workshop on the New Century of Computational Fluid Dynamics, Nobeyama, Japan, April 21-24, 2003. The Nobeyama Workshop focuses on predicting the next one hundred years of development of Fluid Dynamics, accounting for the current status and future trends of high performance computation and communication. The papers cover computational electromagnetics, astrophysical topics, CFD research and applications in general, large-eddy simulation, vortical flows, mesh generation topics, visualization, DNA computing, multidisciplinary simulation and optimisation, as well as algorithmic developments. The Workshops are known for the informal and concentrated atmosphere of in-depth discussion thanks to all the efforts of Prof. Kunio Kuwahara at ISAS, Japan. In celebration of his 60th birthday, this workshop was dedicated to him

Título: New Developments in Computational Fluid Dynamics [Recurso electrónico-En línea] Proceedings of the Sixth International Nobeyama Workshop on the New Century of Computational Fluid Dynamics, Nobeyama, Japan, April 21 to 24, 2003 edited by Kozo Fujii, Kazuhiro Nakahashi, Shigeru Obayashi, Satoko Komurasaki

Editorial: Berlin, Heidelberg Springer Berlin Heidelberg 2005

Descripción física: XVI, 232 p. digital

Tipo Audiovisual: Engineering Physics Fluids Hydraulic engineering Engineering Engineering Fluid Dynamics Numerical and Computational Methods in Engineering Fluids Automotive and Aerospace Engineering, Traffic Complexity

Mención de serie: Notes on Numerical Fluid Mechanics and Multidisciplinary Design (NNFM) 1612-2909 90

Documento fuente: Springer eBooks

Nota general: Engineering (Springer-11647)

Contenido: Implicit Large Eddy Simulation -- Reliability of CFD Simulations -- Unstructured Mesh Generation -- Vortical Flows -- Visualization, and Various Applications such as Shape Optimization -- Fluid-Structure Interactions -- Supernovae, Baseball, and Acoustic Field

Restricciones de acceso: Accesible sólo para usuarios de la UPV

Tipo recurso electrónico: Recurso a texto completo

Detalles del sistema: Forma de acceso: Web

ISBN: 9783540312611

Autores: Nakahashi, Kazuhiro Obayashi, Shigeru Komurasaki, Satoko

Entidades: SpringerLink (Servicio en línea)

Enlace a formato físico adicional: Printed edition 9783540274070

Punto acceso adicional serie-Título: Notes on Numerical Fluid Mechanics and Multidisciplinary Design (NNFM) 1612-2909 90
