Título: Saliency in sociolinguistics [Recurso electrónico] a quantitative approach Péter RÁCZ

Descripción física: 1 online resource (183 pages) illustrations

Mención de serie: Topics in English linguistics 1434-3452 84 E-Libro

Nota general: Originally presented as the author's thesis (doctoral)--Universität Freiburg im Breisgau Description based on print version record

Bibliografía: Includes bibliographical references and index

Contenido: Preliminaries -- Saliency and linguistic Variation -- Lexical reference and social indexation -- Concepts and notations -- Saliency as low probability -- Structure of the book -- Methodology -- Chapter structure -- The case studies -- Concluding remarks -- Defining Saliency -- Saliency as a general term -- Saliency in sociolinguistics -- Saliency in Visual Cognition -- Selective attention in hearing -- Operationalising sociolinguistic saliency -- Preliminaries -- Defining saliency -- Exemplars and transitional probabilities -- Concluding remarks -- Methodology -- Cognitive saliency : main assumptions and considerations -- Cognitive saliency : further assumptions -- Step-by-step corpus editing -- Calculating transitional probabilities -- Definite Article Reduction -- Background -- Details of the process -- DAR as a salient variable -- Analysis -- Methods -- Saliency from token frequency -- Saliency from transitional probability -- Further arguments for phonotactic distinctiveness -- Concluding remarks -- Glottalisation in the South of England -- Background -- Two recent studies -- Saliency and glottalisation -- Analysis -- Methods -- The London-Lund Corpus -- The Spoken Corpus of Adolescent London English -- Modelling results -- Concluding remarks -- Hiatus resolution in Hungarian -- Background -- The perception of hiatus resolution : Methods -- The perception of hiatus resolution : Results -- Hiatus resolution and naive linguistic awareness -- Analysis -- Corpus results -- Main points -- Concluding remarks -- Derhoticisation in Glasgow -- Background -- Social stratification and social awareness -- Derhoticisation in Glasgow -- Irl in Glasgow -- Studies on coda /r/ -- Interim Summary -- Analysis -- The FRED study -- Transitional probabilities in coda /r/ realisation -- Concluding remarks -- The operationalisation and relevance of saliency -- Saliency and models of the lexicon -- The relevance of saliency -- The duality of patterning -- Modelling, phonetic Variation and indexation -- Summary -- Saliency and language change -- Speaker indexation in sound change -- Approaches to Speaker indexation -- Simulations on the role of indexation -- Saliency in the propagation of a change -- Glottalisation in England -- Derhoticisation in Scotland -- Concluding remarks -- Conclusions -- The source of saliency -- From

cognitive properties to language use -- Consequences for phonological modelling -- The predictability of salience -- Types of phonological change -- Consonants and vowels -- Overview -- Concluding remarks -- Bibliography --) Index)
