

## The Bloomsbury companion to Aristotle /

Baracchi, Claudia ( Wolpé, Sholeh ( Wolpé, Sholeh ( Wolpé, Sholeh ( 1962-)

Bloomsbury, imp. 2013

Monografía

Aristotle is one of the most crucial figures in the history of Western thought, and his name and ideas continue to be invoked in a wide range of contemporary philosophical discussions. The Bloomsbury Companion to Aristotle brings together leading scholars from across the world and from a variety of philosophical traditions to survey the recent research on Aristotle's thought and its contributions to the full spectrum of philosophical enquiry, from logic to the natural sciences and psychology, from metaphysics to ethics, politics, and aesthetics. Further essays address aspects of the transmission, preservation, and elaboration of Aristotle's thought in subsequent phases of the history of philosophy (from the Judeo-Arabic reception to debates in Europe and North America), and look forward to potential future directions for the study of his thought. In addition, The Bloomsbury Companion to Aristotle includes an extensive range of essential reference tools offering assistance to researchers working in the field, including a chronology of recent research, a glossary of key Aristotelian terms with Latin concordances and textual references, and a guide to further reading
