

Tata lectures on theta

[

Mumford, David (1937-)

Birkhäuser Boston, 2007

Llibres electrònics

Monografia

"The first of a series of three volumes surveying the theory of theta functions and its significance in the fields of representation theory and algebraic geometry, this volume deals with the basic theory of theta functions in one and several variables, and some of its number theoretic applications. Requiring no background in advanced algebraic geometry, the text serves as a modern introduction to the subject." -- Font no determinada

Título: Tata lectures on theta Recurs electrònic] by David Mumford

Editorial: Boston, MA Birkhäuser Boston 2007

Descripción física: 1 recurs electrònic (vol.)

Nota general: Descripció del recurs: 19 març 2015 Reimpressió. Publicat originalment a: Boston : Birkhäuser, 1983. (Progress in mathematics ; 28)

ISBN: 9780817645779 v. 1) 9780817645786 v. 2)

Materia: Funcions Theta Matemàtica. lemac Geometría algebraica. lemac Anàlisi funcional. lemac Funcions de variables complexes. lemac Funcions especials. lemac Nombres, Teoria dels. lemac

Título preferido: SpringerLink e-books

Punto acceso adicional serie-Título: Modern Birkhäuser classics
