

## 21st century global health diplomacy I

Novotny, Thomas E.

Kickbusch, Ilona (1950-)

Told, Michaela

World Scientific, 2013

Monografía

Health diplomacy begins with a recognition that the most effective international health interventions are ethically carried out with sensitivity to historical, political, social, economic, and cultural differences. Health diplomacy focuses on the interplay of health assistance, economic inequities, and enlightened self-interests of nations. While encompassing much of the social science, humanities, political science, and international relations disciplines, health diplomacy requires new interdisciplinary pedagogical approaches. Tomorrow's health professionals must grapple with the emergent pro
