Monografía

This volume is the result of the many years the authors have spent conducting ethnographic field research with sex workers, conversing with other researchers, and, perhaps most importantly, developing a deep sense of empathy for the sex worker participants in the research as well as the colleagues who carry out this work with the goal of advancing social justice. They have a combined total of twenty-five years' experience carrying out research with sex workers, and this extensive period of time has given them ample opportunity to reflect upon the topic of ethics. Sex work, defined as the excha
