

Marine mammals [evolutionary biology /

Berta, Annalisa

Elsevier/Academic Press,
c2006

Libros electrónicos

Monografía

Berta and Sumich have succeeded yet again in creating superior marine reading! This book is a succinct yet comprehensive text devoted to the systematics, evolution, morphology, ecology, physiology, and behavior of marine mammals. The first edition, considered the leading text in the field, is required reading for all marine biologists concerned with marine mammals. Revisions include updates of citations, expansion of nearly every chapter and full color photographs. This title continues the tradition by fully expanding and updating nearly all chapters. * Comprehensive, up-to-date coverage of the biology of all marine mammals * Provides a phylogenetic framework that integrates phylogeny with behavior and ecology * Features chapter summaries, further readings, an appendix, glossary and an extensive bibliography * Exciting new color photographs and additional distribution maps

Título: Marine mammals Recurso electrónico] evolutionary biology Annalisa Berta, James L. Sumich, Kit M. Kovacs ; with illustrations by Pieter Arend Folkens, Peter J. Adam

Edición: 2nd ed

Editorial: Boston London Elsevier/Academic Press c2006

Descripción física: x, 547 p., [16] p. of plates ill. (some col.) 26 cm

Mención de serie: Books on ScienceDirect

Nota general: Previous ed.: 1999

Bibliografía: Includes bibliographical references and index

Contenido: PART I: EVOLUTIONARY HISTORY -- Systematics and Classification -- Pinniped Evolution and Systematics -- Cetacean Evolution and Systematics -- Sirenians and Other Marine Mammals: -- Evolution and Systematics -- Evolutionary Biogeography -- PART II: EVOLUTIONARY BIOLOGY, ECOLOGY, -- AND BEHAVIOR -- Integumentary and Sensory Systems -- Musculoskeletal System and Locomotion -- Energetics -- Respiration and Diving Physiology -- Sound Production for Communication, Echolocation, and Prey Capture -- Diet, Foraging Structures, and Strategies -- Reproductive Structures, Strategies, and Patterns -- Population Structure and Population Dynamics -- Conservation and Protection -- References -- Appendix: Classification of Marine Mammals -- Glossary -- Index

Restricciones de acceso: Acceso restringido a miembros del Consorcio de Bibliotecas Universitarias de Andalucía

Detalles del sistema: Modo de acceso: World Wide Web

Fuente de adquisición directa: ScienceDirect (M)

ISBN: 9780120885527 0120885522

Materia: Marine mammals Marine mammals- Evolution Mammifères marins Mammifères marins- Évolution

Autores: Sumich, James L. Kovacs, Kit M. (1956-)
