Monografía

At the QMath9 meeting, young scientists learn about the state of the art in the mathematical physics of quantum systems. Based on that event, this book offers a selection of outstanding articles written in pedagogical style comprising six sections which cover new techniques and recent results on spectral theory, statistical mechanics, Bose-Einstein condensation, random operators, magnetic Schrödinger operators and much more. For postgraduate students, Mathematical Physics of Quantum Systems serves as a useful introduction to the research literature. For more expert researchers, this book will be a concise and modern source of reference

Título: Mathematical Physics of Quantum Mechanics [Recurso electrónico] : Selected and Refereed Lectures from QMath9 edited by Joachim Asch, Alain Joye

Editorial: Berlin, Heidelberg Springer Berlin Heidelberg 2006

Descripción física: XXI, 485 p. 42 illus. digital

Mención de serie: Lecture Notes in Physics 0075-8450 690

Documento fuente: Springer eBooks

Contenido: Introduction -- Quantum Dynamics and Spectral Theory -- Quantum Field Theory and Statistical Mechanics -- Quantum Kinetics and Bose-Einstein Condensation -- Disordered Systems and Random Operators -- Semiclassical Analysis and Quantum Chaos

Restricciones de acceso: Acceso restringido a miembros del Consorcio de Bibliotecas Universitarias de Andalucía

Detalles del sistema: Modo de acceso: World Wide Web

Fuente de adquisición directa: Springer (Phys)

ISBN: 9783540342731 9783540310266 ed. impresa)

Autores: Joye, Alain

Entidades: SpringerLink (Online service)
