

Protein Toxins in Modeling Biochemistry [

Kumar, Raj.,
author

Springer International Publishing :
Imprint: Springer,
2016

Monografía

This succinct volume addresses the production of inactive, potentially toxic proteins in the absence of correct protein folding and the resultant neurodegenerative diseases. Other topics include intrinsic disorder in protein structure and function and the effects of molten globules on protein toxicity. This concise and yet thorough text also discusses using toxin structure as a model for studying structural and functional aspects of protein chemistry. Protein Toxins in Modeling Biochemistry, a SpringerBrief, is essential reading for advanced researchers, scientists and advanced graduate students interested in protein chemistry and related areas of biochemistry and molecular science. .

Título: Protein Toxins in Modeling Biochemistry Recurso electrónico-En línea] by Raj Kumar, Bal Ram Singh

Editorial: Cham Springer International Publishing Imprint: Springer 2016

Descripción física: XIX, 145 p. 249 illus., 205 illus. in color. online resource

Tipo Audiovisual: Life sciences Microbiology Proteomics Proteins Life Sciences Protein Science Protein Structure Proteomics Protein-Ligand Interactions Applied Microbiology

Mención de serie: SpringerBriefs in Biochemistry and Molecular Biology 2211-9353

Documento fuente: Springer eBooks

Nota general: Biomedical and Life Sciences (Springer-11642)

Contenido: Protein folding -- Molten Globule -- Uniqueness of toxin structure and function -- Molten globule conformational implication on toxicity

Restricciones de acceso: Accesible sólo para usuarios de la UPV

Tipo recurso electrónico: Recurso a texto completo

Detalles del sistema: Forma de acceso: Web

ISBN: 9783319435404

Autores: Singh, Bal Ram., author

Entidades: SpringerLink (Servicio en línea)

Enlace a formato físico adicional: Printed edition 9783319435381

Punto acceso adicional serie-Título: SpringerBriefs in Biochemistry and Molecular Biology 2211-9353
