

## School bullying [ new perspectives on a growing problem /

Dupper, David R.

Oxford University Press,  
2013

Monografía

'School Bullying' is unique in utilising a larger cultural context and international perspective that broadens the traditional conceptualisation of bullying and that promotes creative approaches to a seemingly intractable and complex problem. In addition, the book investigates several 'under the radar' forms of bullying (e.g., religious bullying, bullying by teachers and other adults in schools), as well as the unique challenges in assessing these largely unacknowledged forms of bullying in today's U.S. public schools
