Título: Advances in bacterial electron transport systems and their regulation edited by Robert K. Poole

Editorial: San Diego Academic Press 2016

Descripción física: xiii, 580 p. il. (algunas en color) 24 cm

Mención de serie: Advances in microbial physiology v.68

ISBN: 978-0-12-804823-8

Materia: Electrones- Transporte

Autores: Poole, Robert K., ed

Punto acceso adicional serie-Título: Advances in microbial physiology v.68
