

## Social work research and practice : contributing to a science of social work /

López Peláez, Antonio, coord Raya Díez, Esther, coord Aranzadi Thomson Reuters, 2017 Monografía

Knowledge can be constructed by building on previous achievements and discoveries. In the case of social work, this implies linking practical knowledge acquired through intervention processes in the social reality with scientific advances in the different social sciences. Both these dimensions, the scientific and the practical, are integrated into a disciplinary body of knowledge whose aim is to address social problems and needs Knowledge can be constructed by building on previous achievements and discoveries. In the case of social work, this implies linking practical knowledge acquired through intervention processes in the social reality with scientific advances in the different social sciences. Both these dimensions, the scientific and the practical, are integrated into a disciplinary body of knowledge whose aim is to address social problems and needs
