

Advances in genetics.

Hall, Jeffrey C.

Elsevier/Academic Press,
c2004

Electronic books

Monografía

The field of genetics is rapidly evolving and new medical breakthroughs are occurring as a result of advances in knowledge of genetics. This series continually publishes important reviews of the broadest interest to geneticists and their colleagues in affiliated disciplines

Título: Advances in genetics. Volume 52 [electronic resource] edited by Jeffrey C. Hall, Jay C. Dunlap, Theodore Friedmann

Editorial: Boston Amsterdam Elsevier/Academic Press c2004

Descripción física: 1 online resource (227 p.)

Mención de serie: Advances in genetics v. 52

Nota general: Description based upon print version of record

Bibliografía: Includes bibliographical references and index

Contenido: Front Cover; Advances in Genetics; Copyright Page; Contents; Contributors; Chapter 1. Therapeutic Applications of RNA Interference: Recent Advances in siRNA Design; I. Introduction; II. siRNA Design; III. Design of shRNAs; IV. Summary; References; Chapter 2. The Splicing of the IGF-I Gene to Yield Different Muscle Growth Factors; I. Introduction; II. Different Ways in Which the IGF-I Gene Can Be Spliced; III. Cloning of IGF-I Splice Variants in Skeletal Muscle; IV. Transgenic Studies Involving IGF-I; V. Splicing of the IGF-I Gene in Neuronal Tissue; VI. Splicing of IGF-I Gene in Other Tissues VII. Mechanical Signals in Splicing of the IGF-I Gene VIII. Hormonal Influence on Splicing of the IGF-I Gene; IX. Peptide Products Resulting from Splicing; X. Receptor-Mediated Cellular Effects of IGF-I; XI. The Role of Binding Proteins in the Regulation of Systemic IGF-I; XII. Gene Transfer of MGF and IGF-IEa; XIII. Modus Operandi of the Different IGF-I Splice Variants; XIV. Conclusions; References; Chapter 3. Breeding Hevea Rubber: Formal and Molecular Genetics; I. Introduction; II. Historical, Botanical, and Agricultural Aspects; III. Breeding Objectives; IV. Genetic Resources V. Yield Variation VI. Reproductive Biology; VII. Conventional Breeding Methodologies; VIII. Breeding Against Stresses; IX. Biotechnologies; X. Conclusions; References; Chapter 4. Gene Transfer for Therapeutic Vascular Growth in Myocardial and Peripheral Ischemia; I. Introduction; II. Mechanisms of Vascular Growth; III. Vascular Growth Factors; IV. Gene Transfer in Skeletal Muscle and Myocardium; V. Therapeutic Vascular Growth; VI. Safety

Aspects; VII. Concluding Remarks; References; Chapter 5. Metabolic Highways of Neurospora crassa Revisited; I. Introduction; II. Amino Acid Biosynthesis III. Purine and Pyrimidine BiosynthesisIV. Vitamin and Cofactor Biosynthesis; V. Mainstream Carbon Metabolism; VI. New Gene Designations; VII. Conclusions; References; Index

Lengua: English

ISBN: 1-281-02065-6 9786611020651 0-08-052231-9

Materia: Genetics Heredity

Autores: Hall, Jeffrey C. Dunlap, Jay C. Friedmann, Theodore (1935-)

Enlace a serie principal: Advances in genetics (CKB)954926956852 (DLC)2011233068 (OCoLC)61765346 0065-2660

Enlace a formato físico adicional: 0-12-017652-1

Punto acceso adicional serie-Título: Advances in genetics v. 52
