Título uniforme: Fosfority na dne okeanov. English

Título: Phosphorites on the sea floor electronic resource] origin, composition, and distribution G.N. Baturin; translated by Dorothy B. Vitaliano

Editorial: Amsterdam New York Elsevier Scientific New York Distributors for the U.S. and Canada, Elsevier Science 1981

Descripción física: 1 online resource (355 p.)

Mención de serie: Developments in sedimentology 33

Nota general: Description based upon print version of record

Bibliografía: Includes bibliography and index

Contenido: Front Cover; Phosphorites on the Sea Floor: Origin, Composition and Distribution; Copyright Page; CONTENTS; Foreword; Foreword to the English edition; INTRODUCTION; Chapter 1. PRINCIPAL FEATURES OF THE MARINE GEOCHEMISTRY OF DISSEMINATED PHOSPHORUS; Sources of phosphorus; Phosphorus in waters; Phosphorus in suspension; Phosphorus in organisms; Recycling of phosphorus in water; Deposition of phosphorus from waters; Disseminated phosphorus in sea and ocean sediments; Phosphorus in interstitial water of marine and oceanic sediments; Release of phosphorus from sediments Chapter 2. PHOSPHORITE ON THE OCEAN SHELVESEast Atlantic province; West Atlantic province; California province; Peruvian-Chilean province; Local accumulations and isolated finds of phosphorite on the ocean shelves; Chapter 3. PHOSPHORITE ON SEAMOUNTS; Pacific Ocean; Atlantic Ocean; Indian Ocean; On the origin of phosphorite on seamounts; Chapter 4. FACIES SETTING OF RECENT OCEANIC PHOSPHORITE FORMATION; Winds;

Waves; Currents and water masses; Upwelling; Climate; Hydrochemistry of the waters; Primary productivity; Biota; Mass mortality of fauna; Sediments Chapter 5. STAGES OF LATE QUATERNARY PHOSPHORITE FORMATION ON THE OCEAN SHELVESSupply of phosphorus to the shelf by ocean waters; Consumption of phosphorus by organisms; Deposition of phosphorus on the bottom; Diagenetic redistribution and concentration of phosphorus; Reworking of phosphatic sediments; Chapter 6. SOME FEATURES OF THE BEHAVIOR OF ELEMENTS ASSOCIATED WITH PHOSPHORUS IN THE COURSE OF OCEANIC PHOSPHORITE FORMATION; Organic matter; Carbon and oxygen isotopes of CO2 and PO4; Amorphous silica; Fluorine; Iodine; Uranium isotopes; Thorium isotopes; Rare earth elements; Iron Rare and disseminated elementsChapter 7. ON THE SIMILARITY OF THE PROCESSES OF RECENT AND PRE-QUATERNARY PHOSPHORITE FORMATION; Chapter 8. CONCLUSIONS; References; Subject Index

Lengua: English

ISBN: 1-281-77803-6 9786611778033 0-08-086947-5

Materia: Phosphate rock Marine mineral resources

Enlace a formato físico adicional: 0-444-41990-X
