

Profiles of drug substances, excipients, and related methodology.

Brittain, Harry G.

Elsevier Academic Press,
2011

Electronic books

Monografía

Volumes in this widely revered series present comprehensive reviews of drug substances and additional materials, with critical review chapters that summarize information related to the characterization of drug substances and excipients. This organizational structure meets the needs of the pharmaceutical community and allows for the development of a timely vehicle for publishing review materials on this topic. The scope of the Profiles series encompasses review articles and database compilations that fall within one of the following six broad categories: Physical profiles of drug substa

Título: Profiles of drug substances, excipients, and related methodology. Volume 36 [electronic resource] edited by Harry G. Brittain

Editorial: San Diego Waltham, MA Elsevier Academic Press 2011

Descripción física: 1 online resource (399 p.)

Mención de serie: Profiles of drug substances, excipients, and related methodology 36

Nota general: Description based upon print version of record

Bibliografía: Include bibliographical references and index

Contenido: Front Cover; Drug Substances, Excipients, and Related Methodology; Copyright; Contents; Preface to Volume 36; Chapter 1: Buclizine; 1. Description; 2. Uses and Application; 3. Methods of Preparation; 4. Physical Characteristics; 5. Methods of Analysis; 6. Stability; Acknowledgment; References; Chapter 2: Chitin; 1. Description; 2. Preparation of Chitin and Its Derivatives; 3. Physical Characteristics; 4. Methods of Analysis; 5. Uses and Applications; 6. Stability; 7. Biodegradability and Toxicology; References; Chapter 3: Ezetimibe; 1. Introduction; 2. Thermal Methods of Analysis 3. Spectrophotometric Methods of Analysis 4. Chromatographic Methods of Analysis; 5. Degradation of Ezetimibe; 6. Determination of Ezetimibe in Biological Sample; References; Chapter 4: Gemifloxacin; 1. Introduction; 2. Description [6]; 3. Physical Characteristics; 4. Synthesis [2]; 5. Mechanism of Action and Uses; 6. Spectroscopy; 7. Methods of Analysis; 8. Clinical Pharmacokinetics and Toxicity; Acknowledgment; References; Chapter 5: Glimepiride; 1. Introduction; 2. Compendial Method of

Analysis; 3. Method of Analysis; 4. Determination of Glimepiride in Biological Sample; References Chapter 6: Lornoxicam 1. Description; 2. Uses and Applications; 3. Methods of Preparation; 4. Physical Characteristics; 5. Methods of Analysis; 6. Mechanism of Action; 7. Pharmacokinetics; 8. Reviews; 9. Stability; Acknowledgment; References; Chapter 7: Magnesium Silicate; 1. Description; 2. Methods of Preparation; 3. Physical Characteristics; 4. Methods of Analysis; 5. Uses; 6. Stability and Incompatibilities; 7. Biodegradability and Toxicity; 8. Related Substances; References; Chapter 8: Tadalafil; 1. Uses and Applications; 2. Description; 3. Physical Properties; 4. Method of Preparation 5. Spectral Properties 6. X-ray Powder Diffractometry; 7. Method of Determination; 8. Pharmacodynamics; 9. Pharmacokinetics; References; Chapter 9: Direct Crystallization of Enantiomers and Dissociable Diastereomers; 1. Introduction; 2. Crystallography of Chiral Compounds; 3. Properties and Resolution of Racemic Mixtures of Dissymmetric Solids; 4. Summary; References; Chapter 10: Cocrystal Systems of Pharmaceutical Interest: 2009; 1. Introduction; 2. Strategies for the Preparation of Cocrystal Systems; 3. Cocrystal Systems Having Pharmaceutical Interest; References; Cumulative Index

Lengua: English

ISBN: 1-283-13730-5 9786613137302 0-12-387702-4

Materia: Drugs- Analysis Excipients- Analysis Pharmaceutical chemistry

Autores: Brittain, H. G.
