editor

Electronic books

Monografía

A workshop was organised in order to achieve multi-disciplinary review of the pathogenesis and management of acute failure, particularly as it occurs and is managed in intensive therapy units. The book deals with the realities and practicalities of this important area of acute medicine. Each chapter is followed by a discussion, so that a consensus view is obtained from an international body of experts

Título: Acute renal failure in the intensive therapy unit David Bihari and Guy Neild (eds.).

Editorial: London New York Springer-Verlag [1990] ©1990

Descripción física: 1 online resource (XX, 392 p.)

Mención de serie: Current concepts in critical care

Nota general: Based on workshop held in Avignon, France in Sept., 1988, sponsored by Fisons PLC "With 63 figures."

Bibliografía: Includes bibliographical references and index

Contenido: Section I: Definitions and Epidemiology -- 1 Acute Renal Failure in the ITU: The Nephrologists View -- 2 Epidemiology of Acute Renal Failure in France Today -- 3 Acute Renal Failure and Sepsis: A Microbiologists View -- 4 Acute Renal Failure at a Crossroads -- 5 Acute Renal Failure in Old Age -- Section II: Some Aspects of Renal Physiology -- 6 Cortical and Juxtamedullary Glomerular Blood Flow After Temporary Ischaemia -- 7 Are Atrial Pressures Involved in the Regulation of Sodium and Water Balance? Studies in Conscious Animals -- Section III: Pathogenesis of Acute Renal Failure in the Intensive Therapy Unit -- 8 Endothelial and Mesangial Cell Dysfunction in Acute Renal Failure -- 9 Role of the Medulla in Acute Renal Failure -- 10 Ischaemic Acute Renal Failure in an Intact Animal Model -- 11 Eicosanoids and Acute Renal Failure -- 12 Disturbances in Renal Function Associated with Hepatic Dysfunction -- 13 A Review of Mediators and the Hepatorenal Syndrome -- 14 Drug-Induced Acute Renal Failure -- 15 Nature of Postischaemic Renal Injury Following Aortic or Cardiac Surgery -- 16 Acute Renal Failure in Sepsis -- Section IV: Clinical Features of Acute Renal Failure in the Intensive Therapy Unit

-- 17 Strategies in Management of Acute Renal Failure in the Intensive Therapy Unit -- 18 Acute Renal Failure and Crush Injury -- 19 Renal Function After Open Heart Surgery -- 20 Acute Renal Failure Following Heart and Heart-Lung Transplantation -- 21 Bleeding in Acute Renal Failure -- 22 Mechanisms of Uraemic Encephalopathy -- 23 Measuring Severity of Illness -- Section V: Strategies in Management of Acute Renal Failure -- 24 Prophylaxis of Acute Renal Failure in the Intensive Care Unit -- 25 Appropriate Renal Support in the Management of Acute Renal and Respiratory Failure: Does Early Aggressive Treatment Improve the Outcome? -- 26 The Role of Spontaneous and Pumped Haemofiltration -- 27 Renal Replacement Therapy in the ICU: Approaches in Switzerland -- 28 Anticoagulation and Extracorporeal Circuits: The Role of Prostacyclin -- 29 Nutritional Support in Acute Renal Failure in the Critically Ill -- 30 The Prevention of Severe Combined Acute Respiratory and Renal Failure in the Intensive Therapy Unit

Lengua: English

ISBN: 1-4471-1750-6

Materia: Acute renal failure- Congresses Critical care medicine- Congresses
