Monografía

"Authoritative and state-of-the art, Bioimaging in Neurodegeneration offers both the physician and researcher a critical survey of the best new technologies for studying neurodegeneration, as well as describing their optimal use in the diagnosis and treatment of specific neurodegenerative diseases."--Jacket

Título: Bioimaging in neurodegeneration edited by Patricia A. Broderick, David N. Rahni, Edwin H. Kolodny

Editorial: Totowa, N.J. Humana Press ©2005

Descripción física: 1 online resource (xvi, 313 pages) illustrations

Mención de serie: Contemporary Neuroscience

Documento fuente: Springer e-books

Bibliografía: Includes bibliographical references and index

Contenido: Parkinson's Disease -- Magnetic Resonance Imaging and Magnetic Resonance Spectroscopy in Parkinson's Disease -- Positron Emission Tomography and Single-Photon Emission Tomography in the Diagnosis of Parkinson's Disease -- Positron Emission Tomography in Parkinson's Disease -- [123I]-Altropene SPECT -- Positron Emission Tomography and Embryonic Dopamine Cell Transplantation in Parkinson's Disease -- Alzheimer's Disease -- Neurotoxicity of the Alzheimer's?-Amyloid Peptide -- Functional Imaging and Psychopathological Consequences of Inflammation in Alzheimer's Dementia -- Neurotoxic Oxidative Metabolite of Serotonin -- Predicting Progression of Alzheimer's Disease With Magnetic Resonance -- Stages of Brain Functional Failure in Alzheimer's Disease -- Epilepsy -- Neocortical Epilepsy -- Pediatric Cortical Dysplasia -- Bioimaging L-Tryptophan in Human Hippocampus and Neocortex -- In Vivo Intrinsic Optical Signal Imaging of Neocortical Epilepsy -- Intraoperative Magnetic Resonance Imaging in the Surgical Treatment of Epilepsy -- Periodic Epileptiform Discharges Associated With Increased Cerebral Blood Flow -- Imaging White Matter Signals in Epilepsy Patients -- Leukodystrophy (White Matter) Diseases -- Overview of the Leukoencephalopathies -- Pyramidal Tract Involvement in Adult Krabbe's Disease -- Imaging Leukodystrophies -- Advanced Magnetic

Resonance Imaging in Leukodystrophies -- Childhood Mitochondrial Disorders and Other Inborn Errors of Metabolism Presenting With White Matter Disease -- Mitochondrial Disease
