Monografía

Brain edema is found in a wide variety of clinical disorders including stroke, intracerebral haemorrhage, subarachnoid haemorrhage, head injury, brain tumors and hydrocephalus. This volume brings together clinical and basic scientists from all over the world. Their expertise in the understanding of brain edema and shifts in brain water compartments has led to a further significant step in our understanding of those diseases characterized by brain edema. This book has also drawn on the expertise of the International Advisory Board of the Brain Edema Society, who have carefully summarized each section, thus providing an easy-to-read summary of the latest advances in each subject. The book is therefore much more than a collection of papers: it represents a critical appraisal and puts each paper into modern scientific context. The greatest advances have come from the rapid development of modern imaging techniques, especially with magnetic resonance imaging (MRI). Imaging can now produce "water maps and "metabolic profiles that bring brain metabolism and water content right into every clinic with access to MRI. This book provides the background knowledge to understand these pathophysiological changes

Título: Brain edema XI [electronic resource] proceedings of the 11th International Symposium, New Castle-upon-Tyne, United Kingdom, June 6-10, 1999 edited by A.D. Mendelow ... [et al.].

Editorial: Wien New York Springer-Verlag c2000

Descripción física: 1 online resource (XIX, 572 p.)

Variantes del título: Brain edema 11 Brain edema eleven

Mención de serie: Acta neurochirurgica. Supplement 0065-1419 76

Nota general: Papers presented at the Eleventh International Symposium on Brain Edema Softcover reprint of the hardcover 1st edition 2000

Bibliografía: Includes bibliographical references and indexes

Lengua: English

ISBN: 3-7091-6346-3

Materia: Cerebral edema- Congresses Brain- Diseases- Congresses

Autores: Mendelow, A. David

Congresos: International Symposium on Brain Edema 11th :. 1999 :. Newcastle upon Tyne, England)

Enlace a formato físico adicional: 3-211-83561-X 3-7091-7257-8

Punto acceso adicional serie-Título: Acta neurochirurgica. Supplementum 76
