Título: Introduction to the theory of valuations Semyon Alesker.

Editorial: Providence, Rhode Island Published for the Conference Board of the Mathematical Sciences by the American Mathematical Society [2018]

Descripción física: vi, 83 p. ill. 26 cm

Mención de serie: CBMS regional conference series in mathematics number 126

Nota general: "Support from the National Science Foundation." NSF-CBMS Regional Conference in the Mathematical Sciences on Introduction to the Theory of Valuations on Convex Sets, held at Kent State University, August 10-15, 2015.

Contenido: Índice de contenidos:Basic definitions and examples -- McMullen's descomposition theorem -- Valuations on the line -- McMullen's description -- The Klain-Schneider characterization of simple valuations -- Digression on the theory of generalized functions on manifolds -- The Goodey-Weil imbedding -- The irreducibility theorem -- Further developments

ISBN: 9781470443597 pbk. : alk. paper) 1470443597 pbk. : alk. paper)

Materia: Grafos, Teoría de Análisis convexo Geometría algebraica
