"11-11: MEMORIES RETOLD is an emotional adventure designed to retell the stories of life on both sides of the front lines 100 years ago. Players will control both Harry, a young Canadian photographer who has joined the war effort searching for adventure, and Kurt, a German engineer searching for his missing son. The world is brought to life through a unique painterly style, whilst the combined voice acting talents of Elijah Wood and Sebastian Koch as Harry and Kurt, and an orchestral score from composer Olivier Deriviere, guide players through moments of both peace and despair."--From Publisher
