Monografía

This book provides an overview of the research work on data privacy and privacy enhancing technologies carried by the participants of the ARES project. ARES (Advanced Research in Privacy an Security, CSD2007-00004) has been one of the most important research projects funded by the Spanish Government in the fields of computer security and privacy. It is part of the now extinct CONSOLIDER INGENIO 2010 program, a highly competitive program which aimed to advance knowledge and open new research lines among top Spanish research groups. The project started in 2007 and will finish this 2014. Composed by 6 research groups from 6 different institutions, it has gathered an important number of researchers during its lifetime. Among the work produced by the ARES project, one specific work package has been related to privacy. This books gathers works produced by members of the project related to data privacy and privacy enhancing technologies. The presented works not only summarize important research carried in the project but also serve as an overview of the state of the art in current research on data privacy and privacy enhancing technologies

Título: Advanced Research in Data Privacy Recurso electrónico] edited by Guillermo Navarro-Arribas, Vicenç Torra

Editorial: Cham Springer International Publishing Imprint: Springer 2015

Editorial: Cham Springer International Publishing 2015

Descripción física: IX, 463 p. 72 il., 18 il. col

Mención de serie: Studies in Computational Intelligence 567

Nota general: Bibliographic Level Mode of Issuance: Monograph

Contenido: Introduction -- Respondent Privacy -- User Privacy

Lengua: English

ISBN: 9783319098852 9783319098869 9783319098845 9783319359915

Materia: Engineering Artificial intelligence Computational Intelligence Artificial Intelligence Information Systems Applications (incl. Internet).

Autores: Navarro-Arribas, Guillermo, ed. lit Torra i Reventós, Vicenç, ed. lit

Enlace a formato físico adicional: 3-319-09884-5

Punto acceso adicional serie-Título: Studies in Computational Intelligence 567
