Título: Biomaterials for oral and craniomaxillofacial applications volume editor, Sanjukta Deb

Editorial: Basel New York Karger 2015

Descripción física: VIII, 118 p. il. 26 cm

Tipo Audiovisual: Biocompatible Materials therapeutic use Dental Materials Maxillofacial Injuries therapy Oral Surgical Procedures methods

Mención de serie: Frontiers of oral biology 1420-2433 vol. 17

Bibliografía: Includes bibliographical references and indexes

Contenido: Biomaterials in relation to dentistry Deb, S. -- Polymer therapeutics in relation to dentistry Rojo, L., Deb, S. -- Biological impact of bioactive glasses and their dissolution products Hoppe, A., Boccaccini, A.R. -- Organic-inorganic composites toward biomaterial application Miyazaki, T., Sugawara-Narutaki, A., Ohtsuki, C. -- New advanced materials for high performance at the resin-dentine interface Toledano, M., Osorio, R. -- Nanobiomaterial coatings in dentistry Choi, A.H., Cazalbou, S., Ben-Nissan, B. -- The effect of titanium surface modifications on dental implant osseointegration Annunziata, M., Guida, L. -- Global gene expression analysis for the assessment of nanobiomaterials Hanagata, N. -- Membranes for periodontal regeneration - a material perspective Bottino, M.C., Thomas, V. -- Biomaterials in the reconstruction of the oral and maxillofacial region Ayoub, A., Al-Fotawei, R.

ISBN: 9783318024609 hard cover : alk. paper) 9783318024616 electronic version)

Materia: Materiales biomédicos Procedimientos Quirúrgicos Orales Maxilares

Autores: Deb, Sanjukta, editor

Punto acceso adicional serie-Título: Frontiers of oral biology v. 17. 1420-2433
