

Advances in chemical engineering.

Wei, James (1930-)

Academic Press, c1998

Electronic books

Monografía

This volume is comprised of reviews to inform the chemical engineering community about important developments in science and technology, and to serve as starting points for further advances. Included are chapters on chemical reactions of all sorts, combustion synthesis, fluid dynamics and the analysis and design of chemical reactors, and industrial cases in environmental engineering

Título: Advances in chemical engineering. Volume 24 electronic resource] editor-in-chief, James Wei

Editorial: San Diego, CA Academic Press c1998

Descripción física: 1 online resource (433 p.)

Mención de serie: Advances in chemical engineering v. 24

Nota general: Description based upon print version of record

Bibliografía: Includes bibliographical references and index

Contenido: Front Cover; Advances in Chemical Engineering, Volume 24; Copyright Page; Contents; Contributors; Preface; Chapter 1. Kinetics and Thermodynamics in Multicomponent Mixtures; I. Introduction; II. Linear Algebra of Stoichiometry; III. Thermodynamics; IV. Kinetics; Appendix A: Orthogonal Complement; Appendix B; Appendix C: The Feinberg Approach to Network Topology; Appendix D: Mathematical Concepts; References; Chapter 2. Combustion Synthesis of Advanced Materials: Principles and Applications; I. Introduction; II. Methods for Laboratory and Large-Scale Synthesis III. Classes and Properties of Synthesized MaterialsIV. Theoretical Considerations; V. Phenomenology of Combustion Synthesis; VI. Methods and Mechanisms for Structure Formation; Nomenclature; References; Chapter 3. Computational Fluid Dynamics Applied to Chemical Reaction Engineering; I. Introduction; II. Traditional Approaches Followed within Chemical Reaction Engineering; III. Computational Fluid Dynamics; IV. Application to Chemical Reaction Engineering; V. Experimental Validation; VI. Selected Applications of CFD Work Conducted at Twente University; VII. Conclusion; Nomenclature References Chapter 4. Using Relative Risk Analysis to Set Priorities for Pollution Prevention at a Petroleum Refinery; I. Introduction; II. Summary; III. Background; IV. Assembling the Inventory of Refinery Releases; V. Assessing the Risks Posed by Refinery Releases; VI. Measuring Public Perception of the Refinery; VII. Developing

and Evaluating Options for Reducing Releases; VIII. Ranking Methods and Results; IX. Implementation of Selected Options: Obstacles and Incentives; References; Index; Contents of Volumes in This Serial

Lengua: English

ISBN: 1-281-71816-5 9786611718169 0-08-056571-9

Materia: Chemistry Chemical engineering

Autores: Wei, James (1930-)
