Monografía

"Egg Parasitoids in Agroecosystems with emphasis on Trichogramma" was conceived to help in the promotion of biological control through egg parasitoids by providing both basic and applied information. The book has a series of chapters dedicated to the understanding of egg parasitoid taxonomy, development, nutrition and reproduction, host recognition and utilization, and their distribution and host associations. There are also several chapters focusing on the mass production and commercialization of egg parasitoids for biological control, addressing important issues such as parasitoid

Título: Egg parasitoids in agroecosystems with emphasis on trichogramma edited by Fernando L. Consoli, José R. P. Parra, Roberto A. Zucchi (eds.).

Editorial: Dordrecht London Springer 2010

Descripción física: 1 online resource

Mención de serie: Progress in biological control v. .9

Bibliografía: Includes bibliographical references and index

Contenido: Contributors; 1 Reproduction and Immature Development of Egg Parasitoids; 2 Nutritional Ecology of Insect Egg Parasitoids; 3 Antennal Structures Used in Communication by Egg Parasitoids; 4 Host Searching by Egg Parasitoids: Exploitation of Host Chemical Cues; 5 Genetics of the Behavioral Ecology of Egg Parasitoids; 6 Sex Ratio Modulators of Egg Parasitoids; 7 Systematics of the Trichogrammatidae (Hymenoptera: Chalcidoidea) with a Focus on the Genera Attacking Lepidoptera; 8 Diversity and Hosts of Trichogramma in the New World, with Emphasis in South America
