Título: Stability of tropical rainforest margins linking ecological, economic and social constraints of land use and conservation Teja Tscharntke [and others], (eds.).

Editorial: Berlin New York Springer ©2007

Descripción física: 1 online resource (xv, 515 pages) illustrations

Mención de serie: Environmental science and engineering. Environmental science 1863-5520

Documento fuente: Springer e-books

Bibliografía: Includes bibliographical references and index

Contenido: The stability of tropical rainforest margins, linking ecological, economic and social constraints of land use and conservation -- an introduction -- The stability of tropical rainforest margins, linking ecological, economic and social constraints of land use and conservation -- an introduction -- Ecosystem decay of Amazonian forest fragments: implications for conservation -- Ecosystem decay of Amazonian forest fragments: implications for conservation -- Moths at tropical forest margins -- how mega-diverse insect assemblages respond to forest disturbance and recovery -- Moths at tropical forest margins -- how mega-diverse insect assemblages respond to forest disturbance and recovery -- Amphibian communities in disturbed forests: lessons from the Neo- and Afrotropics -- Amphibian communities in disturbed forests: lessons from the Neo- and Afrotropics -- Fine root mass, distribution and regeneration in disturbed primary forests and secondary forests of the moist tropics -- Fine root mass, distribution and regeneration in disturbed primary forests and secondary forests of the moist tropics --

Surface soil organic carbon pools, mineralization and CO2 efflux rates under different land-use types in Central Panama -- Surface soil organic carbon pools, mineralization and CO2 efflux rates under different land-use types in Central Panama -- Forest structure as influenced by different types of community forestry in a lower montane rainforest of Central Sulawesi, Indonesia -- Forest structure as influenced by different types of community forestry in a lower montane rainforest of Central Sulawesi, Indonesia -- Impact of forest disturbance and land use change on soil and litter arthropod assemblages in tropical rainforest margins -- Impact of forest disturbance and land use change on soil and litter arthropod assemblages in tropical rainforest margins -- From ecological to political buffer zone: ethnic politics and forest encroachment in Upland Central Sulawesi -- From ecological to political buffer zone: ethnic politics and forest encroachment in Upland Central Sulawesi -- Assessing economic preferences for biological diversity and ecosystem services at the Central Sulawesi rainforest margin -- a choice experiment approach -- Assessing economic preferences for biological diversity and ecosystem services at the Central Sulawesi rainforest margin -- a choice experiment approach -- Forest Products and Household Incomes: Evidence from Rural Households Living in the Rainforest Margins of Central Sulawesi -- Forest Products and Household Incomes: Evidence from Rural Households Living in the Rainforest Margins of Central Sulawesi -- Sustainable management of agroforestry systems -- Shaded coffee and the stability of rainforest margins in northern Latin America -- Economic evaluation of ecosystem services as a basis for stabilizing rainforest margins? The example of pollination services and pest management in coffee landscapes -- Insect diversity responses to forest conversion and agroforestry management -- Plant diversity in homegardens in a socio-economic and agro-ecological context -- Tree species diversity relative to human land uses in tropical rain forest margins in Central Sulawesi -- Alternatives to slash-and-burn in forest-based fallow systems of the eastern Brazilian Amazon region: Technology and policy options to halt ecological degradation and improve rural welfare -- Protected Area Management and Local Benefits -- A case study from Madagascar -- Integrated concepts of land use in tropical forest margins -- Potentials to reduce deforestation by enhancing the technical efficiency of crop production in forest margin areas -- Migration and ethnicity as cultural impact factors on land use change in the rainforest margins of Central Sulawesi, Indonesia -- From global to regional scale: Remote sensing-based concepts and methods for mapping land-cover and land-cover change in tropical regions -- Effects of land-use change on matter and energy exchange between ecosystems in the rain forest margin and the atmosphere -- Science and technology and sustainable development in Brazilian Amazon
