Título: The Active image architecture and engineering in the age of modeling Sabine Ammon, Remei Capdevila-Werning, editors

Editorial: Cham Springer [2017]

Descripción física: 317 pàgines il·lustracions 24 cm

Mención de serie: Philosophy of Engineering and Technology 1879-7202 28

Bibliografía: Inclou referències bibliogràfiques i índex

Contenido: Conté: Chapter 1: Reinhold Martin, Points of Departure: Notes Toward a Reversible History of Architectural Visualization; Chapter 2: Daniel Cardoso Llach, Architecture and the Structured Image: Software Simulations as Infrastructures for Building Production; Chapter 3: Remei Capdevila-Werning, Architectural Drawings as Symbols: A Goodmanian Account of Epistemic Practices in the Design Process; Chapter 4: Gabriela Goldschmidt, Manual Sketching: Why is it Still Relevant?; Chapter 5: Irene Mittelberg, Thomas H. Schmitz, Hannah Groninger, Operative Manufacts: Gestures as Immediate Sketches in the Early Stages of the Design Process; Chapter 6: Rivka Oxman, The Role of the Image in Digital Design: Processing the Image versus Imaging the Process; Chapter 7: Nathalie Bredella, Visualization Techniques and Computational Design Strategies: Reflecting on the Milieu and Agency of Digital Tools in 1990s Architecture; Chapter 8: Sabine Ammon, Image-based Epistemic Strategies in Modeling: Designing Architecture after the Digital Turn; Chapter 9: Alice Comi, Suha Jaradat, Jennifer Whyte, Constructing Shared Vision in Design Practice: Material Mediation in Professional Work between Architects and Engineers; Chapter 10: Mehul Bhatt, Carl Schultz, People-Centered Visuospatial Cognition. Next-generation Architectural Design Systems and their Role in Conception, Computing, and Communication; Chapter 11: Johannes Lenhard, License to Explore: How Images Work in Simulation Modeling; Chapter 12: Doris Hallama, On Fuzziness and Relationships: Abstraction and Illustrative Visualization in Snow Avalanche Control Planning

ISBN: 9783319564654

Materia: Arquitectura- Models Imatge- Processament- Tècniques digitals Representació arquitectònica Enginyeria- Models Imatges digitals

Autores: Ammon, Sabine, editor literari Capdevila Werning, Remei, editor literari

Punto acceso adicional serie-Título: Philosophy of Engineering and Technology 1879-7202 28
