Título: Best practice approaches for characterizing, communicating and incorporating scientific uncertainty in climate decision making synthesis and assessment product 5.2 report by the U.S. Climate Change Science Program and the Subcommittee on Global Change Research ; authors: M. Granger Morgan [and others]

Editorial: Washington, D.C. U.S. Climate Change Science Program [2009]

Descripción física: 1 online resource (89 pages) color illustrations

Mención de serie: U.S. Climate Change Science Program synthesis and assessment product 5.2

Nota general: "January 2009"--Cover

Bibliografía: Includes bibliographical references

Materia Entidad: Climate Change Science Program (U.S.)- Evaluation Climate Change Science Program (U.S.)

Materia: Communication in the environmental sciences- Evaluation Climatology- Research- United States- Evaluation Communication of technical information- Evaluation Communication in science- Evaluation Climatic changes- Risk assessment Climatic changes Atmospheric ozone Greenhouse gases Atmospheric ozone Climatic changes Climatic changes- Risk assessment Evaluation Greenhouse gases

Materia Geográfica: Estados Unidos

Autores: Morgan, M. Granger (Millett Granger) (1941-)

Entidades: Climate Change Science Program (U.S.) National Science and Technology Council (U.S.).

Subcommittee on Global Change Research Estados Unidos. National Oceanic and Atmospheric Administration
Estados Unidos. Department of Energy

Enlace a formato físico adicional: Print version Best practice approaches for characterizing, communicating and incorporating scientific uncertainty in climate decision making. Washington, D.C. : U.S. Climate Change Science Program, [2009] (OCoLC)693812817

Punto acceso adicional serie-Título: Synthesis and assessment product 5.2
