Título: Coastal sensitivity to sea-level rise a focus on the mid-Atlantic Region report by the U.S. Climate Change Science Program and the Subcommittee on Global Change Research ; Lead agency: U.S. Environmental Protection Agency ; other key participating agencies: U.S. Geological Survey, National Oceanic and Atmospheric Administration ; contributing agencies: Department of Transportation ; coordinating lead author: James G. Titus, lead authors: K. Eric Anderson [and others]

Editorial: Washington, D.C. U.S. Climate Change Science Program For sale by the Supt. of Docs., U.S. G.P.O. [2009]

Descripción física: 1 online resource (xvi, 298 pages) illustrations (chiefly color), maps (chiefly color), charts

Variantes del título: Focus on the mid-Atlantic Region

Mención de serie: Synthesis and assessment product 4.1

Nota general: "January 2009"--Cover Shipping list no.: 2009-0377-P

Bibliografía: Includes bibliographical references (pages 255-298)

Contenido: Abstract -- Preface / motivation for reports -- Executive summary -- Part 1: The physical environment. Overview -- 1. Sea-Level rise and its effects on the coast -- 2. Coastal elevations -- 3. Ocean coasts -- 4. Coastal wetland sustainability -- 5. Vulnerable species: the effects of sea-level rise on coastal habitats -- Part II. Societal impacts and implications. Overview -- 6. Shore protection and retreat -- 7. Population, land use, and infrastructure -- 8. Public access -- 9. Coastal flooding, floodplains, and coastal zone management Issues -- Part III: Preparing for sea-level rise. Overview -- 10. Implications for decisions -- 11. Ongoing adaptation -- 12. Institutional barriers -- Part IV: National implications and a science strategy for moving forward. Overview -- 13. Implications of sea-level rise to the nation -- 14. A science strategy for improving the understanding of sea-level rise and its impacts on the

U.S. coasts -- Appendix I : State and local information on vulnerable species and coastal policies -- Appendix 2 : Basic approaches for shoreline change projections -- Glossary -- Acronyms and abbreviations -- Scientific names -- References
