Título: Decision-support experiments and evaluations using seasonal-to-interannual forecasts and observational data a focus on water resources : synthesis and assessment product 5.3 report by the U.S. Climate Change Science Program and the Subcommittee on Global Change Research ; edited by Nancy Beller-Simms ; contributing editors Helen Ingram [and others]

Editorial: Washington, D.C. U.S. Climate Change Science Program [2008]

Descripción física: 1 online resource (xii, 190 pages) color illustrations

Mención de serie: Climate Change Science Program synthesis and assessment product 5.3

Nota general: "November 2008"--Cover

Bibliografía: Includes bibliographical references

Contenido: Changing context -- A description and evaluation of hydrologic and climate forecast and data products that support decision-making for water resource managers -- Decision-support experiments within the water resources management sector -- Making decision-support information useful, usable, and responsive to decision-maker needs -- Looking toward the future

Materia: Hydrologic cycle Water Climatic changes Climatic changes Hydrologic cycle Water

Autores: Beller-Simms, Nancy Kay Ingram, Helen M. (1937-)

Entidades: Climate Change Science Program (U.S.) National Science and Technology Council (U.S.).
Subcommittee on Global Change Research
