Monografía

Regenerative medicine for the repair of connective tissues is a fast moving field which generates a lot of interest. Unfortunately the biomaterials and biomechanics for soft tissue repair has been under-represented in the past. Particularly the natural association between cartilage, tendons and ligaments is often not made. Regenerative medicine and biomaterials for the repair of connective tissues addresses this gap in the market by bringing together the natural association of cartilage, tendons and ligaments to provide a review of the different structures, biomechanics and, more import

Título: Regenerative medicine and biomaterials for the repair of connective tissues [electronic resource] edited by Charles Archer and Jim Ralphs

Editorial: Boca Raton, Fla. CRC Press Oxford Woodhead Pub. Ltd. 2010

Descripción física: 1 online resource (504 p.)

Mención de serie: Woodhead Publishing Series in Biomaterials

Nota general: Description based upon print version of record

Bibliografía: Includes bibliographical references and index

Contenido: pt. 1. Cartilage repair and regeneration -- pt. 2. Repair of tendons and ligaments

ISBN: 1-84569-779-0

Materia: Regenerative medicine Connective tissues

Autores: Archer, Charles Ralphs, Jim

Enlace a formato físico adicional: 1-84569-417-1

Punto acceso adicional serie-Título: Woodhead Publishing Series in Biomaterials
