Título: Advances in food and nutrition research. Volume 35 [electronic resource] edited by John E. Kinsella

Editorial: San Diego, Calif. Academic Press c1991

Descripción física: 1 online resource (389 p.)

Mención de serie: Advances in food and nutrition research v. 35

Nota general: Description based upon print version of record

Bibliografía: Includes bibliographical references and index

Contenido: Front Cover; Advances in Food and Nutrition Research, Volume 35; Copyright Page; Contents; Contributors to Volume 35; Preface; Chapter 1. α -Linolenic Acid: Functions and Effects on Linoleic Acid Metabolism and Eicosanoid-Mediated Reactions; I. Introduction; II. Essential Fatty Acids; III. Dietary Sources and Supply of α -Linolenic Acid; IV. Metabolism of α -Linolenic Acid; V. Interconversion of Unsaturated Fatty Acids; VI. Regulation of Desaturases; VII. Metabolism and Conversion of Dietary α -Linolenic Acid; VIII. Interactions of Dietary α -Linolenic Acid and n-6 Polyunsaturated Fatty Acids IX. Eicosanoids X. Nutritional Effects and Functions of α -Linolenic Acid; XI. Dietary n-3 Polyunsaturated Fatty Acids and Amelioration of Diseases; XII. Summary: Possible Mechanisms of Action of n-3 Unsaturated Fatty Acids; XIII. Possible Dietary Requirements for α -Linolenic Acid and n-3 Polyunsaturated Fatty Acids; XIV. Conclusions; References; Chapter 2. Protein Digestibility: In Vitro Methods of Assessment; I. Introduction; II. Modifications That Commonly Affect Protein Digestibility; III. Measurement of Protein Digestibility; IV. Future Directions; References Chapter 3. Protein and Enzyme Stability: Structural, Thermodynamic, and Experimental Aspects I. Introduction; II. Protein Stability; III. Structural Factors Contributing to Thermal Stability of Proteins; IV. Modification of Enzymes to Study Thermal Stability; V. Effect of Additives on Thermal Stability; VI. Concluding Remarks; References; Chapter 4. Thermal Analysis of Food Proteins; I. Introduction; II. Studies of Food Proteins by Differential Scanning Calorimetry; III. Studies of Protein Foods by Thermogravimetry; IV. Studies of Protein Gels by Thermal Scanning Rheological Analysis V. Conclusions References; Index

Lengua: English

ISBN: 1-281-70989-1 9786611709891 0-08-056780-0

Materia: Nutrition- Research Food- Research

Autores: Kinsella, John E. (1938-)

Enlace a serie principal: Advances in food and nutrition research (CKB)954927715364 (DLC)2011233087 (OCoLC)60644000 2213-6797
