

Advances in food and nutrition research.

Kinsella, John E. (1938-)

Academic Press, c1993

Electronic books

Monografía

Advances in Food Research, the leading publication for comprehensive reviews on important topics in food science, has evolved into Advances in Food and Nutrition Research under the editorial direction of John E. Kinsella. This expanded title recognizes the integral relationships between food science and nutrition and presents reviews of topics in nutrition as well as food science. This change also encourages nutritionists and food scientists to become more familiar with relevant advances in these interrelated areas

Título: Advances in food and nutrition research. Volume 37 [electronic resource] edited by John E. Kinsella

Editorial: San Diego London Academic Press c1993

Descripción física: 1 online resource (457 p.)

Mención de serie: Advances in food and nutrition research v. 37

Nota general: Description based upon print version of record

Bibliografía: Includes bibliographical references and index

Contenido: Front Cover; Advances In Food and Nutrition Research, Volume 37; Copyright Page; Contents; Contributors to Volume 37; Preface; Chapter 1. Food, Diet, and Gastrointestinal Immune Function; I. Introduction; II. Overview of the Gastrointestinal Immune System; III. Diseases Involving the Gastrointestinal Immune System; IV. Impact of Food Constituents and Contaminants on Gastrointestinal Immunity; V. Modification of Gastrointestinal Immunity through Food and Diet; VI. Research Needs; References; Chapter 2. Effect of Consumption of Lactic Cultures on Human Health; I. Introduction II. General Physiology III. Health Targets; IV. Safety Issues; V. Considerations for Strain Selection; VI. Research Needs; VII. Conclusions; References; Chapter 3. Defining the Role of Milkfat in Balanced Diets; I. Introduction; II. Background Information-Dietary Fat Consumption and Composition; III. Dietary Fat, Dairy Products, and Coronary Heart Disease; IV. Dietary Fat, Dairy Products, and Cancer Risk; V. Milkfat as Part of the Total Diet; VI. Conclusions and Research Needs; References; Chapter 4. Biochemistry of Cardiolipin: Sensitivity to Dietary Fatty Acids; I. Introduction II. Discovery of Polyglycerophospholipids III. Abundance of Polyglycerophospholipids; IV. Pathways of Polyglycerophospholipid Synthesis; V. Intracellular Location of Polyglycerophospholipid Synthesis; VI.

Conformation of Cardiolipin in Biomembranes; VII. Degradation of Polyglycerophospholipids; VIII. Oxidation of Cardiolipin; IX. Association of Enzymes with Cardiolipin; X. Cardiolipin Acyl Composition; XI. Influence of Diet and Other Factors on Cardiolipin Content; XII. Possible Role of Cardiolipin in Resistance to Ethanol-Induced Membrane Disordering; XIII. Immunologic Activity of Cardiolipin XIV. Chemical Synthesis of Acyl-Specific Cardiolipin Derivatives XV. Chromatographic Separation of Cardiolipin; References; Chapter 5. Diseases and Disorders of Muscle; I. Introduction; II. Disorders and Diseases of Muscle; III. Disorders of Energy Metabolism; IV. Diseases of the Connective Tissues; V. Research Needs; VI. Summary; References; Index

Lengua: English

ISBN: 1-281-74844-7 9786611748449 0-08-056782-7

Materia: Food- Research Nutrition- Research

Autores: Kinsella, John E. (1938-)
