

Knowledge intensive entrepreneurship and innovation systems [evidence from Europe /

Malerba, Franco (1950-)

Routledge, 2010

Electronic books

Monografía

This book examines entrepreneurship from three interrelated perspectives. Firstly, it links entrepreneurship to innovation and to the generation, transformation and use of knowledge. Secondly, it inserts entrepreneurship in innovation systems of various types- national, sectoral and local. Thirdly, it views entrepreneurship not as a single event but as a process that evolves in time, from the pre-entry experience, to the entrepreneurial act, to the evolution of the entrepreneur and the new company. With chapters from a range of international contrib
