Religion, Pluralism, and Reconciling Difference is aimed at exploring differing ways of grappling with the resulting tensions, and then asking, will the tensions ultimately yield poisonous polarization that erodes all hope of meaningful community? Or can the tradition and the institutions protecting freedom of religion or belief be developed and applied in ways that (still) foster productive interactions, stability, and peace? This volume brings together vital and thoughtful contributions treating aspects of these mounting worldwide tensions concerning the relationship between religious diversity and social harmony.
