**Título:** Compatible materials recommendations for the preservation of European cultural heritage scientific editors, A. Moropoulou ... [et al.].

**Editorial:** [Atenas] Association of Civil Engineers of Greece [2000]

**Descripción física:** 254 p. il. col. y n., map. 24 cm

**Mención de serie:** PACT : revue du groupe européen d'études pour les techniques physiques, chimiques, biologiques et mathématiques appliquées à l'archéologie / Conseil de l'Europe ISSN 0257-8727 59

**Nota general:** En la port.: RAPHAEL-COMARECH R99/II.2.a.11/GR-99/SI2.81089. Selección de ponencias presentadas a las conferencias: "Evaluation methods of materials and conservation interventions compatibility in the length of time", celebrada en Venecia el 29 de Junio de 2000; "Compatible materials and techniques for earthquake and monuments' protection", Estambul, 1 de octubre de 2000; y "Compatible materials for the protection of monuments", Atenas, 15-16 de diciembre de 2000.

**Bibliografía:** Incluye referencias bibliográficas.

**Contenido:** Contiene: I. EARTHQUAKE PROTECTION OF MONUMENTS. COMPATIBLE REPAIR MATERIALS AND INTERVENTIONS. "Dynamic response of Hagia Sophia and Süleymaniye in Istanbul inferred from the recordings of 1999 Kocaeli and Düzce earthquakes" E. Durukal, S. Cimilli, M. Erdik ; "Compatible restoration mortars for the earthquake protection of Hagia Sophia" A. Moropoulou ... [et al.] ; "Engineering geological problems caused by human interference on monuments that influence their seismic behaviour (four case studies)" I. Mariolakos, I. Fountoulis, E. Andreiadakis ; "An inequality numerical modelling for the seismic analysis of monumental complexes and masonry structures : the Hagia Sophia case" A. A. Liolios ; "Guidelines and specifications for strengthening of old masonry structures against seismic actions" T. Sali. -- II. COMPATIBLE MATERIALS AND INTERVENTIONS FOR THE CONSERVATION OF HISTORIC ARCHITECTURAL SURFACES. "Renewal of lime wall coverings with lime based paintings : some theoretical

issues and the case-study of "Torre das Cabaças", in Santarém" J. Aguiar, T. Diaz Gonçalves, J. Delgado Rodrigues ; "Investigation for the compatibility of conservation interventions on Hagia Sophia mosaics using NDT techniques" A. Moropoulou ... [et al.]. -- III. COMPATIBLE MATERIALS AND INTERVENTIONS FOR THE CONSERVATION OF HISTORIC MASONRIES. "On the analysis of historical stone arch bridges : a comparative study with a new space-frame model and the inequality numerical approach" M. Karaveziroglou ... [et al.] ; "Preliminary research for the evaluation of mortars and plasters on historic masonries" G. Biscontin, D. Botteon ; "Study of lime renderings for the rehabilitation of traditional constructions : a case study" T. Diaz Gonçalves, J. Delgado Rodrigues ; "Experimental characterisation of lime based rendering and repointing mortars : definition of relevant laboratorial and in situ tests" M. R. Veiga, F. Carvalho ; "Design and in situ application of repair mortars for the works of 'Restoration and strengthening of the Markos' Water Mill in Verria, Greece" A. Moropoulou ... [et al.] ; "Characterization of some mortar samples of Hagia Sophia sampled from the south-west corner and the repair mortars" A. Güleç, A. Ersen, N. Baturayoglu. -- IV. COMPATIBLE MATERIALS AND INTERVENTIONS FOR CONSOLIDATION AND GROUTING. "Characterization of the in-situ materials as condition for the design of repair materials : application on the mortars of the fortification walls of Kos" E. E. Toumbakari ... [et al.] ; "Protection of buried monuments against ground water activity using grouting techniques" B. Christaras, I. Mariolakis, M. Chatziangelou. -- V. TECHNIQUES AND METHODOLOGY TO EVALUATE THE COMPATIBILITY OF CONSERVATIONS MATERIALS AND INTERVENTIONS IN MONUMENTS SCALE. "Compatibility evaluation of consolidation treatments in monument scale" A. Moropoulou ... [et al.] ; "The usage of ultrasonic techniques at calcination studies" N. Kantiranis ... [et al.] ; "Decision making methodology for strategical planning of compatible conservation interventions through GIS management of structural materials and environmental impact data : application in the case of Tobacco Factory in Heraklion, Crete" A. Moropoulou, P. Triantafyllopoulou, E. Aggelakopoulou

**Materia:** Arquitectura- Conservación Congresos y asambleas Monumentos- Conservación Congresos y asambleas Materiales de construcción- Conservación Congresos y asambleas

**Autores:** Moropoulou, Antonia

**Entidades:** Association of Civil Engineers of Greece. Comisión Europea. Raphael Programme. Groupe européen d'études pour les techniques physiques, chimiques, biologiques et mathématiques appliquées à l'archéologie.
