Guide to Microforms in Print is the internationally acknowledged standard guide to microforms, listing more than 225,000 publications available from approx. 260 publishers and distributors around the world. It has now also embarked on listing online titles and digitally-scanned research material, made accessible to the user in electronic formats. The titles listed are rare and valuable monographs, historical journals, newspapers, almanacs, and periodicals, as well as archive holdings, collections, bequests and much more. The alphabetical Author Title list comprises title entries with cross-references from authors and editors to respective titles. Entries contain the following information: title, subtitle; author(s), editor(s); publisher, place and date of publication; collation information; type of product; price; ISBN/ISSN; order number; publisher/distributor code; subject class
