Título: Advances in catalysis and related subjects. Volume 12 edited by D.D. Eley, P.W. Selwood, Paul B. Weisz

Editorial: New York Academic Press 1960

Descripción física: 1 online resource (x, 324 pages) illustrations

Variantes del título: Advances in catalysis

Mención de serie: Advances in catalysis v. 12

Bibliografía: Includes bibliographical references and indexes

Contenido: Front Cover; Advances in Catalysis, Volume XII; Copyright Page; Contents; List of Contributors; Preface; Chapter 1. The Wave Mechanics of the Surface Bond in Chemisorption; I. Introduction; II. A Solid with a Free Surface; III. The Molecular Orbital Theory of the Surface Bond; IV. Types of Surface Bonds; V. Chemisorption on Semiconductors; VI. Conclusion; References; Chapter 2. Magnetic Resonance Techniques in Catalytic Research; I. Introduction; II. Nuclear Magnetic Resonance; III. Electron Paramagnetic Resonance; IV. Conclusion; References Chapter 3. Base-Catalyzed Reactions of HydrocarbonsI. Introduction; II. Isomerization; III. Side-Chain Alkylation of Arylalkanes; IV. Nuclear Alkylation of Aromatics; V. Alkylation of Alkylpyridines; VI. Reactions of Olefins; VII. Conclusion; References; Chapter 4. The Use of X-Ray K-Absorption Edges in the Study of Catalytically Active Solids; I. Introduction; II. Origin of Fine Structure; III. Experimental; IV. Spectra of Known Compounds; V. Spectra of Catalysts; VI. Summary; References; Chapter 5. The Electron Theory of Catalysis on Semiconductors; I. Introduction II. Types of Chemisorption BondsIII. Radical and Valence-Saturated Forms of Chemisorption; IV. Electron Transitions in Chemisorption; V. Catalytic Activity of a Semiconductor; VI. Interaction of the Surface with the Bulk of the Semiconductor; VII. Promoters and Poisons in Catalysis; VIII.

Factors Affecting the Adsorptivity and Catalytic Activity of a Semiconductor; IX. Chemisorption and Catalysis on a Real Surface; X. Conclusions; References; Chapter 6. Molecular Specificity in Physical Adsorption; I. Introduction; II. The Perturbation of Solids by Adsorbed Molecules III. Perturbation of Adsorbed GasesIV. Overall Changes at the Solid-Gas Interface; V. Conclusion; References; Auther Index; Subject Index
