Título: Advances in heat transfer. Volume 11 electronic resource] edited by Thomas F. Irvine, Jr, James P. Hartnett

Editorial: New York London Academic Press 1975

Descripción física: 1 online resource (481 p.)

Mención de serie: Advances in heat transfer v. 11

Nota general: Description based upon print version of record

Bibliografía: Includes bibliographical references and index

Contenido: Front Cover; Advances In Heat Transfer, Volume 11; Copyright Page; Contents; List of Contributors; Preface; Contents of Previous Volumes; Chapter 1. Boiling Liquid Superheat; I. Introduction; II. Liquid Superheat; III. Survey of Liquid Superheat in Boiling; IV. Experimental Determination of the Temperature Field Around a Growing Bubble; V. Determination of the Statistical Characteristics of Liquid Superheat Fluctuation in Pool Boiling; VI. Concluding Remarks; Nomenclature; References; Chapter 2. Film-Boiling Heat Transfer; Introduction; I. Film Pool Boiling; II. Film Boiling in External Flow III. Forced Flow Film Boiling in ChannelsNomenclature; References; Chapter 3. The Overall Convective Heat Transfer from Smooth Circular Cylinders; I. Introduction; II. Natural Convection; III. Forced Convection; IV. Combined Natural and Forced Convection; V. Conclusions; Nomenclature; References; Note Added In Proof; Chapter 4. A General Method of Obtaining Approximate Solutions to Laminar and Turbulent Free Convection Problems; I. Introduction; II. Laminar Heat Transfer by Free Convection; III. Turbulent Heat Transfer by Free Convection IV. New Correlation Parameters for Free Convective Heat TransferV. Summary; Addendum; Appendix: Heat Transfer between Symmetrically Heated Plates; Nomenclature; References; Note Added In Proof; Chapter 5. Heat Transfer in Semitransparent Solids; I. Introduction; II. Energy Transfer Processes; III. Basic Equations of Energy Transfer; IV. Physical Properties; V. Radiation Characteristics of Semitransparent Solids; VI. Transient Heat Transfer in Cold Semitransparent Solids;

VII. Combined Conduction and Radiation Heat Transfer; VIII. Solidification and Melting of Semitransparent Materials IX. The Measurement of Temperature in the Presence of Radiative Transfer X. Concluding Remarks; Nomenclature; References; Author Index; Subject Index

Lengua: English

ISBN: 1-281-72713-X 9786611727130 0-08-057565-X

Materia: Energy transfer Heat- Transmission

Autores: Harnett, J. P. (James P.) Irvine, Thomas F. (Thomas Francis)

Enlace a serie principal: Advances in heat transfer (CKB)954928521848 (DLC)2011233356 (OCO LC)268995602 0065-2717

Enlace a formato físico adicional: 0-12-020011-2
