Título: Advances in heat transfer. Volume 19 electronic resource] edited by Thomas F. Irvine, Jr, James P. Hartnett

Editorial: San Diego Academic Press 1989

Descripción física: 1 online resource (373 p.)

Mención de serie: Advances in heat transfer v. 19

Nota general: Description based upon print version of record

Bibliografía: Includes bibliographical references and index

Contenido: Advances in Heat Transfer, Volume 19; Copyright Page; Contents; Chapter 1. Melting and Freezing; I. Introduction; II. Conduction-Dominated Melting- Freezing Problems; III. Convection-Dominated Melting-Freezing Problems; IV. Additional Effects in Phase-Change Processes; Nomenclature; References; Chapter 2. Heat Transfer between Immersed Surfaces and Gas-Fluidized Beds; I. Introduction; II. Bed Fluidization and Powder Classification; III. Bed Hydrodynamic Behavior at High Temperatures and Pressures; IV. Heat Transfer to and from Immersed Surfaces V. A Mechanistic Theory of Heat Transfer from Immersed Surfaces VI. Heat Transfer from Immersed Rough and Finned Surfaces; VII. Heat Transfer from Tube Bundles; VIII. Heat Transfer to Immersed Surfaces at High Temperatures; IX. Concluding Remarks; Nomenclature; References; Chapter 3. Variational Solutions of Complex Heat and Mass Transfer Problems; I. Introduction; II. Complex Problems of Heat and Mass Transfer; III. Methods of Solution of Complex Heat and Mass Transfer Problems; IV. Variational Methods for Solving Problems of Unsteady-State Heat and Mass Transfer V. Variational Description of Heat Transfer Processes with Variable Thermophysical Characteristics including Convective Heat Transfer VI. An Example of Temperature Field Determination in an Infinite Plate; VII. One-Dimensional Temperature Field of an Infinite Plate with a Time-Dependent Rate of Convective Heat Transfer; VIII. Temperature Field of Complex-Shaped Bodies; IX. Use of the Computer for Analytic Transformations in Variational Solutions; X. Estimation of

Approximations when Using the Convolution-Type Functional; XI. Conclusion; Nomenclature; References Chapter 4. Heat Transfer to Newtonian and Non-Newtonian Fluids in Rectangular DuctsI. Introduction; II. Laminar Flow; III. Turbulent Flow; IV. Suggestions for Future Research; Nomenclature; References; Index

Lengua: English

ISBN: 1-281-72719-9 9786611727192 0-08-057573-0

Materia: Energy transfer Heat- Transmission

Autores: Harnett, J. P. (James P.) Irvine, Thomas F. (Thomas Francis)

Enlace a serie principal: Advances in heat transfer (CKB)954928521848 (DLC)2011233356 (OCoLC)268995602 0065-2717

Enlace a formato físico adicional: 0-12-020019-8
