Título: Advances in microbial physiology. Volume 1 electronic resource] edited by A. H. Rose and J. F. Wilkinson

Editorial: New York, N.Y. Academic Press 1967

Descripción física: 1 online resource (289 p.)

Mención de serie: Advances in microbial physiology 1

Nota general: Includes index

Contenido: Front Cover; Advances in Microbial Physiology , Volume 1; Copyright Page; Contents; Contributors to Volume I; Editors' Preface; Chapter 1. Viability Measurements and the Survival of Microbes under Minimum Stress; I. Introduction; II. Methodology; III. Results; IV. Prospects; V. Acknowledgement; References; Chapter 2. Aflatoxins; I. Introduction; II. Microbiological Aspects of Aflatoxin Production; III. Biosynthesis of Aflatoxins; IV. Acknowledgements; References; Chapter 3. Regulation of Nucleic Acid and Protein Formation in Bacteria; I. Introduction; II. Regulation and Bacterial Growth III. Regulation of DNA Formation IV. Regulation of RNA Formation; V. Regulation of Enzyme Synthesis; References; Chapter 4. Biochemical Aspects of Extreme Halophilism; I. Introduction; II. Extreme Halophiles and Their Growth Relations; III. Metabolic Apparatus of the Extreme Halophiles; IV. Cell Envelope of the Halobacteria; V. On the Rise of Extreme Halophilism; References; Chapter 5. The Biochemistry of the Bacterial Endospore; I. Introduction; II. Cytological Development of the Spore; III. Chemical Composition of the Mature Spore; IV. Biochemistry of Spore Formation V. Genetic Control of Spore Morphogenesis and Induction of Spore Formation VI. Maturation and the Physico-Chemical State of the Mature Resting Spore; VII. Heat Resistance; VIII. Conclusions; IX. Acknowledgement; References; Author Index; Subject Index

Lengua: English

ISBN: 1-281-71133-0 9786611711337 0-08-057961-2

Materia: Microorganisms- Physiology Microbiology

Autores: Rose, A. H. Wilkinson, J. F.

Enlace a serie principal: Advances in microbial physiology (CKB)954926956860 (DLC)2011200619 (OCoLC)60626331 2162-5468

Enlace a formato físico adicional: 0-12-027701-8
