Monografía

520 This thoroughly revised and comprehensive edition of a highly praised classic, *Androgen Excess Disorders in Women* covers the growing importance of polycystic ovary syndrome (PCOS) as the most prevalent androgen excess disorder in women. This volume addresses the latest research findings on the etiology, pathophysiology, clinical manifestations, genetics, and consequences of androgen excess disorders in women, including PCOS, nonclassic adrenal hyperplasia, androgen-secreting tumors, severe insulin-resistant hyperandrogenic syndromes, and rarer causes of androgen excess and hirsutism. Full consideration is given to the long-term consequences of androgen excess and PCOS, including endometrial hyperplasia and carcinoma, infertility, cardiovascular and lipoprotein abnormalities, osteoporosis, obesity and glucose intolerance, and psychosocial problems. In addition, detailed information on the methods now available for diagnosis and treatment of these disorders are extensively reviewed. Cutting-edge and timely, the second edition of *Androgen Excess Disorders in Women: Polycystic Ovary Syndrome and Other Disorders* serves as an indispensable guide and resource for clinicians and researchers alike in the care and study of women with androgen excess disorders

Título: Androgen excess disorders in women polycystic ovary syndrome and other disorders edited by Ricardo Azziz, John E. Nestler, Didier Dewailly

Edición: 2nd ed

Editorial: Totowa, N.J. Humana Press 2006

Descripción física: 1 online resource (xviii, 466 pages) illustrations

Mención de serie: Contemporary endocrinology

Bibliografía: Includes bibliographical references and index

Contenido: A brief history of androgen excess / Ricardo Azziz -- Ovarian and adrenal androgen biosynthesis and metabolism / Walter L. Miller, David H. Geller, and Mitchell Rosen -- Androgens throughout the life of women /

C. Richard Parker, Jr. -- Physiological effects of androgens in women / T. Keta Hodgson and Glenn D. Braunstein -- Androgen measurements: methods, interpretation, and limitations / Frank Z. Stanczyk -- Androgen-secreting adrenal and ovarian neoplasms / Michel Pugeat [and others] -- Cushing's syndrome, acromegaly, and androgen excess / Anne-Céline Reyss and Didier Dewailly -- The nonclassic adrenal hyperplasias / Didier Dewailly and Ricardo Azziz -- Pregnancy-related androgen excess / Howard D. McClamrock -- Drug-induced hyperandrogenism / Barbara Neraud and Didier Dewailly -- Severe insulin-resistant hyperandrogenic syndromes / David E. Moller, Antonio Vidal-Puig, and Ricardo Azziz -- Idiopathic hirsutism / Enrico Carmina -- Definition and epidemiology of the polycystic ovary syndrome / Ricardo Azziz -- Clinical features of the polycystic ovary syndrome / Walter Futterweit, Evanthia Diamanti-Kandarakis, and Ricardo Azziz -- Biochemical features of the polycystic ovary syndrome / Adam H. Balen -- Ovarian histology, morphology, and ultrasonography in the polycystic ovary syndrome / Sophie Jonard [and others] Hypothalamic-pituitary-gonadotrophic dysfunction in the polycystic ovary syndrome / R. Jeffrey Chang and Rinku V. Mehta -- Ovarian steroidogenic abnormalities in the polycystic ovary syndrome / Denis A. Magoffin -- Hypothalamic-pituitary-adrenal dysfunction in the polycystic ovary syndrome / Bulent O. Yildiz, Enrico Carmina, and Ricardo Azziz -- The genetic basis of the polycystic ovary syndrome / Mark O. Goodarzi -- Pediatric hyperandrogenism and the polycystic ovary syndrome in adolescence / Kathleen M. Hoeger -- Environmental factors in the polycystic ovary syndrome / Marie-France Hivert and Jean-Patrice Baillargeon -- Animal models and fetal programming of the polycystic ovary syndrome / David H. Abbott [and others] -- Insulin resistance and hyperinsulinism in the polycystic ovary syndrome / Paulina A. Essah and John E. Nestler -- The endocrine impact of obesity and body habitus in the polycystic ovary syndrome / Renato Pasquali and Alessandra Gambineri -- Molecular mechanisms of insulin resistance in the polycystic ovary syndrome / Theodore P. Ciaraldi -- Menstrual dysfunction and endometrial neoplasia in the polycystic ovary syndrome / Abdulkadir Wagley and Paul Hardiman -- Beta-cell dysfunction, glucose intolerance, and diabetes in the polycystic ovary syndrome / David A. Ehrmann -- Hypertension and cardiovascular and lipoprotein abnormalities in the polycystic ovary syndrome / Francesco Orio and Stefano Palomba Reproductive and obstetrical consequences of the polycystic ovary syndrome / Mary C. Johnson and Richard S. Legro -- Psychosocial and quality-of-life consequences of androgen excess and the polycystic ovary syndrome / Onno E. Janssen, Susanne Hahn, and Sigrid Elsenbruch -- Overview of long-term morbidity and economic cost of the polycystic ovary syndrome / Ricardo Azziz -- Clinical and hormonal evaluation of androgen excess / Ricardo Azziz -- Ovarian suppression and treatment of hirsutism / Paolo Moghetti -- Polycystic ovary syndrome and ovulation induction / Bulent O. Yildiz and Ricardo Azziz -- In vitro fertilization for the polycystic ovary syndrome / Hanadi Ba-Akdah [and others] -- Surgical management of the polycystic ovary syndrome / Adam H. Balen -- Use of insulin sensitizers in the polycystic ovary syndrome / Kai I. Cheang and John E. Nestler -- Weight reduction and lifestyle modification in the treatment of androgen excess / Manny Noakes [and others]
