"Education in Non-EU Countries in Western and Southern Europe is a critical reference guide to the development of education in Albania, Andorra, Bosnia and Herzegovina, the Faroe Islands, Iceland, Kosovo, Liechtenstein, Macedonia, Monaco, Montenegro, Norway, San Marino, Serbia, Switzerland and the Vatican City. The chapters, written by regional experts, provide detailed studies of educational systems, which are considered in the light of the broader international trends and developments. Key themes include educational reform and the quality of education, educational change processes in post-socialist transition, the Europeanization of higher education, and the unique challenges of educational provision faced by microstates. Including guides to available online datasets, this book is an essential reference for researchers, scholars, international agencies and policy-makers"--
