When the seed of West Side Story's "Somewhere" is planted into the soul of a gay child, the quest of the film begins. Nine inter-connected scenes interpret this landmark theatrical event, while charting a molten course through the depths and shallows of the urban gay male experience. From the late-night club crawl to the buff-bunny gyms, from the threat of anti-gay violence to the place where condemnation, compromises and closets are a thing of the past, the film exposes the sexual, spiritual and political yearnings at the heart of gay America
