Título: The alkaloids. Chemistry and pharmacology. Volume 21 [electronic resource] edited by Arnold Brossi, founding editor, R. H. F. Manske

Editorial: New York London Academic Press 1983

Descripción física: 1 online resource (389 p.)

Mención de serie: Alkaloids. Chemistry and pharmacology v. 21

Nota general: Description based upon print version of record

Bibliografía: Includes bibliographical references and index

Contenido: Front Cover; The Alkaloids: Chemistry and Pharmacology; Copyright Page; Contents; List of Contributors; Preface; Contents of Previous Volumes; Chapter 1. Acridone Alkaloids: Experimental Antitumor Activity of Acronycine; I. Historical Introduction; II. Physical and Chemical Properties; III. Structure of Acronycine: Principal Syntheses; IV. Experimental Antitumor Activity of Acronycine; V. Structure-Activity Relationships (SAR); VI. Mammalian Metabolism; VII. Preclinical Studies of Acronycine; VIII. Mechanism of Action; IX. Summary and Conclusions; Appendix; Addendum; References Chapter 2. The Quinazolinocarboline Alkaloids I. Introduction and Nomenclature; II. Occurrence; III. Structure and Synthesis; IV. Biosynthesis; V. Pharmacological Properties of Quinazolinocarboline Alkaloids and Synthetic Analogs; References; Chapter 3. Isoquinolinequinones from Actinomycetes and Sponges; I. Introduction and Occurrence; II. Saframycin-Type Antibiotics; III. Renieramycin-Type Antibiotics; IV. Naphthyridinomycin-Type Antibiotics; V. Mimosamycin-Type Antibiotics; VI. Biological Activity; Addendum; References; Chapter 4. Camptothecin; I. Introduction; II. Total Synthesis III. Biogenesis IV. Medicinal Chemistry; References; Chapter 5. Amphibian Alkaloids; I. Introduction; II. Location and Function of Amphibious Venoms: Steroidal Alkaloids, Tetrodotoxin; III. Spiropiperidines, cis-Decahydroquinolines, and Octahydroindolizidines; IV. Neurotoxins, Receptors, and Ion

Transport; V. Epilogue.; References; Addendum; Chapter 6. Simple Isoquinoline Alkaloids; I. Introduction; II. Simple Isoquinoline Alkaloids; III. I-Phenyl-, 4-Phenyl-, and N-Benzyl-Substituted Simple Isoquinoline Alkaloids; IV. Biogenesis; V. Biological Effects; References Chapter 7. Mammalian AlkaloidsI. Introduction; II. Chemical Considerations; III. Analytical Separation and Detection of Mammalian Alkaloids; IV. Production of 1,2,3,4-Tetrahydroisoquinolines inVtro; V. Tetrahydroisoquinolines in Human and Animal Models; VI. Mammalian β -Carboline Formation; VII. Alternative Modes of Mammalian Alkaloid Formation; VIII. Metabolic Studies of Mammalian Alkaloids; IX. Effects of Mammalian Alkaloids on Biochemical Processes; X. Physiological and Behavioral Effects of Mammalian Alkaloids.; XI. Summary; References; Index

Lengua: English

ISBN: 1-281-71393-7 9786611713935 0-08-086545-3

Materia: Alkaloids- Physiological effect Alkaloids

Autores: Manske, R. H. F. (Richard Helmuth Fred) (1901-1977.) Brossi, Arnold

Enlace a serie principal: The Alkaloids (CKB)110978978548957 (DLC)83641081 2161-2994

Enlace a formato fisico adicional: 0-12-469521-3
