Título: The alkaloids. Chemistry and pharmacology. Volume 29 [electronic resource] edited by Arnold Brossi

Editorial: Orlando, FL London Academic Press 1986

Descripción física: 1 online resource (343 p.)

Mención de serie: Alkaloids. Chemistry and pharmacology v. 29

Nota general: Description based upon print version of record

Bibliografía: Includes bibliographical references and index

Contenido: Front Cover; The Alkaloids: Chemistry and Pharmacology, Volume 29; Copyright Page; Contents; Preface; Chapter 1. Chemotaxonomy of Papaveraceae and Fumariaceae; I. Introduction; II. Chemotaxonomic Evaluation of the Papaveraceae; III. Chemotaxonomic Evaluation of the Fumariaceae; IV. Alphabetic Listing of the Papaveraceae and Fumariaceae Alkaloids and Their Formulas; References; Chapter 2. Quinazoline Alkaloids; I. Introduction; II. Simple Substituted Quinazolin-4-ones; III. The Pyrroloquinazolines; IV. The Pyrido[2,1 -b] quinazolines; V. The Indoloquinazolines; VI. Biosynthesis VII. Biological Activity of Quinazoline Alkaloids and Their AnalogsReferences; Chapter 3. The Naphthyl Isoquinoline Alkaloids; I. Introduction; II. Alkaloids from Ancistrocladaceae; III. Alkaloids from Dionchophyllaceae; IV. Biosynthesis of Naphthyl Isoquinoline Alkaloids; V. The Biomimetic Synthesis of Acetogenin Isoquinoline Alkaloids; VI. Concluding Remarks; References; Chapter 4. Alkaloidal Substances from Aspergillus Species; I. Introduction; II. Pyrazine Metabolites; III. Diketopiperazine Metabolites Derived from Tryptophan and Alanine IV. Diketopiperazines Derived from Tryptophan and ProlineV. Other Diketopiperazines Derived from Tryptophan; VI. Diketopiperazines Derived from Phenylalanine; VII. Metabolites Derived from Tryptophan and Anthranilic Acid; VIII. Indole-Mevalonate Metabolites; IX. Bisindolylbenzoquinone Metabolites; X. Miscellaneous Metabolites; References; Chapter 5. The Daphniphyllum Alkaloids; I. Introduction; II. Structures and Properties; III. Pharmacological Properties; References; Chapter 6. The Cularine Alkaloids; I. Introduction; II. Occurrence and Classification; III. Physical and Chemical Properties IV. Total SynthesisV. Stereochemistry; VI. Biosynthesis; VII. Pharmacological Properties; References; Index

Lengua: English

ISBN: 1-281-74944-3 9786611749446 0-08-086553-4

Materia: Alkaloids- Physiological effect Alkaloids

Autores: Brossi, Arnold
