The Handbook on the Economics of Giving, Reciprocity and Altruism provides a comprehensive set of reviews of literature on the economics of nonmarket voluntary transfers. The foundations of the field are reviewed first, with a sequence of chapters that present the hard core of the theoretical and empirical analyses of giving, reciprocity and altruism in economics, examining their relations with the viewpoints of moral philosophy, psychology, sociobiology, sociology and economic anthropology. Secondly, a comprehensive set of applications are considered of all the aspects of society where
