

Spirit outside the gate [decolonial pneumatologies of the American global south /

García-Johnson, Óscar

IVP Academic, an imprint of InterVarsity Press,
[2019]

Monografía

Oscar García-Johnson explores a new grammar for the study of theology and mission in global Christianity, especially in Latin America. Moving to recover important elements in ancestral traditions of the Americas, he discerns pneumatological continuity between the pre-Columbian and post-Columbian communities. With an interdisciplinary, narrative approach, this work offers a constructive theology of mission for the church in global contexts
