Electronic videos

Material Proyactable

As part of its Creative Cloud subscription offering, Adobe has introduced the Photoshop Photography Program. Designed exclusively for photographers, it provides easy and affordable access to both Photoshop CC and Lightroom 5. This video training program, presented by award-winning photographer and experienced instructor Mikkel Aaland, is for photographers who now have access to both of these powerful, industry-standard photography tools. Specifically geared to photographers who have a solid grounding in Photoshop Lightroom, but who would now also like to take advantage of the powerful features in Photoshop, this course includes 2 hours of high-definition video tutorials, complete with lesson files, assessment quizzes, and a printed reference guide. In addition to describing the most common workflow tasks between Lightroom and Photoshop, Mikkel will dive into the most common image-editing tasks in Photoshop CC such as photo retouching, creating panoramas, enhancing slideshows, and more. Lesson Files are here https://ptgmedia.pearsoncmg.com/digital/learn_by_video/9780133805802/Lesson_Files.zip
