Analítica

A compilation of around a hundred and a half creditors' meetings proceedings tenured at the Burgos courts during the modern centuries and the beginnings of the 19th century. They represent an excellent source for the knowledge of the economic reality in some localities, such as Arenillas, Presencio, Quintana del Pidio, Villasilos or Villaveta. The information conserved in these proceedings is of importance for the field of economic or social history as well as for the knowledge of the legal proceedings for creditors' meetings
