Material Projectable

"Focuses on two [South African] wine farms where 'empowerment' projects have recently been started in response to these calls for change. The wine farm workers receive part of the profits from the sale of 'empowerment' brand wine Winds of Change. They have used this money to buy their own houses and shares in the wine farm business. On the surface, these 'empowerment' projects seem to be a radical departure from the abusive, paternalistic labor relationship between farm owners and workers that has existed for so long. But the legacy of centuries of abuse cannot be eradicated overnight."--Container
